### **ANNEXURES**

- A. Template of the Note Verbale with Pledge Description
  - B. Template of the Unit's Table of Organization (Organigram) for PCRS Pledge
  - C. Template of Unit's List of Major Equipment (ME) for PCRS Pledge
  - D. Template of Unit's List of Self-Sustainment Capabilities (SS) for PCRS Pledge
  - E. Template of Operational and Technical Information for PCRS Pledge for Air Unit
  - F. Template for PCRS Training Pledges
- 

### **A. PURPOSE AND RATIONALE**

1. The purpose of these guidelines is to explain objectives, organization, and structure of the Peacekeeping Capability Readiness System (PCRS), to detail the procedures related to the registration of pledges made by Member States and to outline the criteria and conditions for pledges to be accepted and elevated to different levels of readiness in the PCRS.
  2. The objective of the PCRS is to ensure readiness and timely deployment of well-prepared peacekeeping capabilities to field missions. It should also allow for more predictability, standardization, and efficiency in the management of offers as these guidelines establish clearly defined criteria and a set process for registration and verification to be followed by Member States and the UN Secretariat. These guidelines are aimed to develop a common understanding by Member States and the Secretariat around a predictable and dynamic process of interaction for the registration, acceptance, assessment, and subsequent elevation of pledges.
- 

### **B. SCOPE**

3. These guidelines apply to Member States and Secretariat staff involved in the process of registration of all military, police and civil defence enabling capabilities, as well as training pledges to the PCRS. They provide guidance on the actions to be taken by Member States, describe the Secretariat's responsibilities, and list considerations to be understood by both Member States and the Secretariat when using the PCRS.

4. The guidelines are complementary to the latest Contingent Owned Equipment (COE) Manual and provide an umbrella for the Rapid Deployment Level (RDL) of the PCRS Guidelines. The COE Manual remains the official reference for reimbursement of military and police equipment deployed in formed units and under a Memorandum of Understanding (MOU) to UN peace operations.
- 

## **C. PROCEDURES**

5. The PCRS is managed by the Strategic Force Generation and Capability Planning Cell (SFGCPC). The PCRS is web-based and hosted at <https://pcrs.un.org>.
6. The aim of the PCRS is to achieve a greater degree of readiness and predictability for the selection of military and police units to be deployed to a peace operation through a more sustained, efficient, and collaborative approach between the Secretariat and the Member States. It also allows the Secretariat to understand the types, quantities and readiness of pledges made by Member States compared against most pressing requirements to inform strategic engagements for capabilities that are high in demand and low in supply. The PCRS should be, under normal circumstances, the sole mechanism for the identification of a military or police unit for potential deployment.
7. There are four distinct levels of the PCRS, defined as follows:
  - 7.1. Level 1: A pledged capability has been fully accepted and registered in the PCRS, after the submission of the required basic pledge documentation. These documents are described in Paragraph 9.1. A pledge at Level 1 is not yet considered for deployment as no assessment has been made about the offered capability. There is no commitment from a Troop/Police Contributing Country (T/PCC) to accept an invitation to deploy a pledge at this PCRS Level, nor a Secretariat commitment to select the pledge for deployment.
  - 7.2. Level 2: A Level 1 capability has received a successful Assessment and Advisory Visit (AAV) and is considered available for a future deployment selection process. The AAV SOP (Reference 28) provides detailed guidance on the conduct of an AAV. There is no commitment from a T/PCC to accept an invitation to deploy a pledge at this level of the PCRS, nor a Secretariat commitment to select the pledge for deployment.
  - 7.3. Level 3: A Level 2 pledged capability has its contingent-owned equipment and personnel aligned with a military/police Generic Statement of Unit Requirement (SUR) through a review process. The T/PCC is expected to be able to prepare the unit for deployment in 90 to 120 days after an invitation for deployment is accepted. There is no commitment from a T/PCC to accept an invitation to deploy a pledge at this PCRS Level, nor a Secretariat commitment to select the pledge for deployment.
  - 7.4. Rapid Deployment Level (RDL): A unit at the RDL has been verified against a military/police Generic SUR and is ready to start its deployment to any new or existing UN field mission within 60 days after a formal invitation from the Secretariat. A T/PCC with a pledge at RDL, has, in principle, a commitment to accept an invitation for deployment to any existing or new UN field mission. Units at RDL will be paid 25 per cent of the maintenance component of set reimbursement rates for major equipment stated in the RDL Agreement (RDLA) during the period these units are registered in the RDL.

## 8. User Registration for Member States to access the PCRS website

- 8.1. Member States can register up to three official users of the PCRS website which should be updated to reflect post rotations. Each user must request their own login identification by completing a registration form available on the PCRS website and submitting it to the PCRS Manager through the website.
- 8.2. The PCRS Manager will confirm with the Military/Police Adviser (or delegate in charge of peacekeeping affairs) of the Permanent Mission to the UN to authorize/validate these users.
- 8.3. The PCRS Manager will process the information and send it to the Unite Service Desk. Users will receive an email from the Unite Service Desk to activate their Unite Identification, which includes a user ID (Unite ID) and a temporary password to access the Member State's pledges on the PCRS website.
- 8.4. The user ID and temporary password will be assigned by Unite Service Desk via email. The temporary password will expire within 24 hours after it is sent. The user must reset the password by following the link and instructions contained in the email.

## 9. Pledge Registration

- 9.1. A pledge should be submitted through the PCRS website by filling out an online pledge form available on the PCRS website and uploading copies of four basic required documents (five, in the case of an air capability): 1) a Note Verbale (NV) with the description of the pledge; 2) the unit's Table of Organization (Organigram); 3) the unit's List of ME (using the COE manual nomenclature); and 4) the unit's List of SS Services. For capabilities that include air assets, a detailed information of technical and operational characteristics of the air assets must also be submitted. Templates of these documents are included as annexes to the guidelines.
- 9.2. For a training pledge, besides the information on the online form, a NV with the description of the pledge and the Training Pledge Form in Annexure F should be uploaded in the PCRS. Training pledges will remain as 'registered' (see 11.2).
- 9.3. If a capability comes with any caveats or specific requests for the location or duration of deployment, those should be listed clearly in both the NV and in the online pledge form. Any gaps in capability (e.g., shortage of number, equipment, etc.) should also be listed clearly in the NV and pledge form.
- 9.4. Each capability should be pledged separately (one form for each type of formed unit or capability - e.g., infantry battalion, military staff officers, military observers, individual police officers and training support), as each pledge will have an individual reference number to make each pledge identifiable.
- 9.5. Once a pledge is accepted at Level 1 or as "Registered", a system generated receipt will be issued by email to the Member State official user confirming the action. Any Member State whose pledge does not meet the full requirements for Level 1 or "Registered" will be contacted by the PCRS Manager with guidance on how to meet the full requirements to be accepted at Level 1 or "Registered".

- 9.6. Once a pledge is registered and if there are any capability shortfalls of the police or military unit pledged in the PCRS, Member States may coordinate with the Light Coordination Mechanism (LCM) to discuss partnership opportunities for the provision of training, financing, equipment and logistic including infrastructure and seek assistance in identifying potential training and capacity building providers. Member States may also directly reach out to other Member States to acquire and meet the capability shortfalls.
  - 9.7. All pledges entered in the PCRS by Member States will receive a label as Pending Approval until they are verified by the PCRS Manager.
  - 9.8. Pledges can be created or cancelled at any time by the Member State.
10. Pledge Renewal
  - 10.1. To ensure pledges remain valid, Member States must renew their pledges annually (based on the UN peacekeeping fiscal year: 1 July - 30 June), regardless of the level of the pledge. A system generated notification will be sent to the Member State 30 days prior to the end of the fiscal year. A confirmation button will be available, and the user should choose the next UN peacekeeping fiscal year to confirm the pledge in case it is still valid. There is no need to create a new pledge with the same documents already used.
11. Pledge Registration and Acceptance at Level 1
  - 11.1. A pledge fulfilling all required basic criteria will be accepted at Level 1 or as "Registered" in the PCRS.
  - 11.2. Only military units, police units (FPU, GU and SWAT) and civil defence units will be accepted at Level 1, all other types of pledges (individuals, training support, air lift and other capabilities) will be considered as "Registered". Once these pledges are accepted, a system generated notification will be sent to the user informing the result.
  - 11.3. There is no commitment from a T/PCC to accept an invitation to deploy a pledge at this PCRS Level, nor a Secretariat commitment to select the pledge for deployment.
12. Elevation from Level 1 to Level 2
  - 12.1. The UN Secretariat will make the decision to initiate the process to move a unit from Level 1 to Level 2. The Secretariat will analyse, among other criteria, the operational requirements in field missions, the number of pledges of same nature already available in the PCRS at that Level, geographical diversity, a Member State's historical performance record (including in-mission unit performance evaluations and COE performance, Human Rights Records and Conduct and Discipline), language skills, level of women's participation, and availability of Secretariat human and financial resources, to invite Member States to initiate a process to elevate a military and/or police unit from Level 1 to Level 2. Member States can, at any point, request the Secretariat to elevate their units from Level 1 to Level 2, but the decision will belong to the Secretariat.
  - 12.2. Once a decision is made to proceed with the protocol to move a pledge from Level 1 to Level 2, the SFGCPC, in collaboration with UCSD, will coordinate with Member States to conduct a Strategic AAV.

- 12.3. Based upon the outcome of the AAV, Member States will either be informed of the elevation of a pledge to Level 2 by fax from the Office of Military Affairs (OMA) or Police Division (PD) or through a system generated notification. In case the unit is not yet ready to be elevated to Level 2, the Member State will receive advice on the necessary areas of improvement (e.g., training, equipment, operational capability, misconduct prevention including sexual exploitation and abuse, etc). The AAV report will be shared with the Member State within 30 days of its signature.
  - 12.4. If shortfalls are indicated in the AAV report, the Member State should formally notify the Secretariat, via Note Verbale with the SFGCPC in copy, when the shortfalls have been addressed. The notification must attach copy of documents that describe and prove exactly how the shortfalls have been addressed (e.g., procurement order, bill of lading, etc.). Once the provided documents are received, the Secretariat will decide whether to elevate the unit from Level 1 to Level 2.
  - 12.5. If the Member State is interested, the SFGCPC can request the LCM to support in identifying potential training and capacity building providers that could help in addressing some of the identified shortfalls.
  - 12.6. If a unit is accepted at Level 2, and the Member State is willing to maintain that pledge in the PCRS, the regular annual pledge confirmation will be required for the following UN peacekeeping fiscal year. Following three years on Level 2, if a unit has not been deployed, a self-certification from the Member State stating that the unit retains the capabilities that were assessed and verified during the AAV will be required to maintain the unit at that level. This self-certification will be valid for two years. After a five-year period at Level 2, a new Strategic AAV (in-person or remote) may be conducted to maintain the pledge at Level 2, otherwise the pledge will return to Level 1.
  - 12.7. There is no commitment from a T/PCC to accept an invitation to deploy a pledge at this PCRS Level, nor a Secretariat commitment to select the pledge for deployment.
13. Elevation from Level 2 to Level 3
    - 13.1. The UN Secretariat will make the decision to initiate the process to move a unit from Level 2 to Level 3. The Secretariat will analyse, among other criteria, the operational requirements in field missions, the number of pledges of same nature already available in the PCRS at that level, geographical diversity, and availability of Secretariat human and financial resources, to invite Member States to initiate a process to elevate a military and/or police unit from Level 2 to Level 3. Member States can, at any point, request the Secretariat to elevate their units from Level 2 to Level 3, but the decision will belong to the Secretariat.
    - 13.2. Once a decision is made to invite a Member State to elevate a unit to Level 3, the Secretariat will share the relevant Generic SUR with the Member State to base the unit's organization and equipment proposal. As soon as the Member State is sure that the unit meets the ME and SS requirements, it should send a NV including the comparative list of the ME reflecting availability and, in case of shortfalls, the expected timelines of availability, SS, against the Generic SUR, a draft cargo load list, the ammunition list, the desired port of embarkation, and proposed deployment readiness timelines (90 to 120 days) to the SFGCPC. The SFGCPC, with support from OMA and PD, together with the Department of Operational Support (DOS),

will coordinate with the Member State the negotiation and verification of aforementioned documents.

- 13.3. Once the documents are negotiated, verified and considered acceptable, the Member State will be informed, by fax from OMA or PD, or through a system generated notification about the elevation of that unit from Level 2 to Level 3 in the PCRS.
  - 13.4. If a unit is accepted at Level 3, and the Member State is willing to maintain that pledge in the PCRS, the regular annual pledge confirmation will be required for the following UN peacekeeping fiscal year. After two years at Level 3, a self-certification stating that the unit's information (cargo-load list, ME and SS list, ammunition list in accordance with scales reflected in United Nations Manual on Ammunition Management (UNMAM), and port of embarkations for personnel and equipment) is still valid will be required to maintain the unit at that level. This self-certification will be valid for one year. After a five-year total period starting at Level 2 and including Level 3, a new Strategic AAV (in-person or remote) may be conducted to maintain the pledge at Level 3, otherwise the pledge will return to Level 1.
  - 13.5. There is no commitment from a T/PCC to accept an invitation to deploy a pledge at this PCRS Level, nor a Secretariat commitment to select the pledge for deployment.
14. Elevation to the Rapid Deployment Level (RDL)
- 14.1. Detailed information on procedures for military and police units to be selected for the RDL are provided in the specific RDL Guidelines (Reference 17).
  - 14.2. A Member State must make a specific pledge through NV to have a unit registered at the RDL. Units at the RDL undergo a specific verification procedure. As an in-person revalidation visit every two peacekeeping fiscal years is required for units at that level, there will be no time limit for a unit to remain at RDL. If the unit returns to Level 2 or Level 3, the relevant time limitations will apply.
  - 14.3. A T/PCC with a pledge at RDL has, in principle, a commitment to accept an invitation for deployment to any existing or new UN field Mission and to be ready for deployment in up to 60 days without caveats.

---

## **D. ROLES AND RESPONSIBILITIES**

15. DPO
- 15.1. OMA is responsible for providing military experts to participate in Strategic AAVs when required.
  - 15.2. OMA should provide support to SFGCPC whenever documents should be analysed for the elevation of units from Level 2 to Level 3 and for the RDL (specific guidance provided in the RDL Guidelines)
  - 15.3. PD is responsible for providing police experts to participate in Strategic AAVs when required.

- 15.4. PD should provide support to SFGCPC whenever documents should be analysed for the elevation of units from Level 2 to Level 3 and for the RDL (specific guidance provided in the RDL Guidelines).
- 15.5. The SFGCPC is the leading authority for all activities related to the PCRS.
- 15.6. The SFGCPC is responsible for all coordination with Member States, OMA, PD, and DOS for PCRS processes.
- 15.7. The PCRS Manager shall assist Member States to obtain credentials to use the PCRS website; analyse all pledges and decide the acceptance at Level 1; keep track of all pledges; and ensure deadlines for renewal or expiration of pledges are adhered to.
16. DOS
- 16.1. DOS is responsible for verifying and validating, together with the SFGCPC, required documents for Level 3 submitted by a Member State and liaising with the Member State to address these problems.
- 16.2. DOS is for providing technical experts to participate in Strategic AAVs.
- 16.3. DOS is responsible for equipment verification, RDLA, budgeting and reimbursements and supporting SFGCPC in the process to elevate units to the RDL (specific guidance provided in the RDL Guidelines).
17. Member States
- 17.1. Member States are responsible for registering their official users for the PCRS website.
- 17.2. Member States are responsible for managing their pledges, including the submission of pledges by filling the pledge form, attaching the correct supporting documentation, and any necessary cancellation of pledges.
- 17.3. Member States must provide the necessary documents in a timely fashion that are required to elevate or maintain units in the various PCRS Levels.
- 17.4. Member States are responsible for hosting the AAVs, including, among other things, providing in-country travel arrangements, to provide all supporting documentation, to conduct capability exercises as relevant, and to display all available ME and SS capabilities of the pledged units during these visits.
- 17.5 Member States are responsible for confirming their pledges on an annual basis before the beginning of the UN peacekeeping fiscal year. They are also responsible for withdrawing their pledges if/when those capabilities are no longer available.
- 

## **E. TERMS AND DEFINITIONS**

18. PCRS - The Peacekeeping Capability Readiness System - is the system administered by DPO to register and maintain capability pledges for UN Peacekeeping. It aims to establish a predictable, efficient and dynamic process of interaction between the

UNHQ and T/PCCs for ensuring readiness and timely deployment of quality peacekeeping capabilities.

19. RDL – The Rapid Deployment Level is the fourth and highest level of readiness of the PCRS. On completion of RDL verification visit and RDLA, a unit is prepared to be fully ready to deploy from the port of embarkation within 60 days of the request made by the Secretariat.
  20. AAV - Assessment and Advisory Visit – a visit planned and executed to facilitate the planning and decision-making process of UNHQ and a Member State. It is aimed at gaining an accurate picture of the preparedness and readiness of pledged units, so as to enable more timely deployment of capabilities to peacekeeping operations.

## Annex A:

### Template of the Note Verbale with Pledge Description

The Permanent Mission of **XXX** to the United Nations presents its compliments to the Office of the Military Affairs and/or PD (as relevant) of the Department of Peace Operations and has the honour to inform of the availability of the following capability(-ies) for contribution in UN Peacekeeping Operations if and when requested by the United Nations Secretariat. The government of **XXX** also certifies that the individuals attached to the pledged unit will have completed their basic training in accordance with the UN Training requirements prior to a deployment.

The government of **XXX** certifies that it is not aware of any allegation against any member of the participating unit having been involved, by act or omission, in the commission of any acts that amount to violations of international human rights law or international humanitarian law.

S.No.	Pledge	Remarks
1.	Level II Hospital <ul style="list-style-type: none"><li>• Table of Organization (Organigram) - attached</li><li>• List of Major Equipment - attached</li><li>• List of Self Sustainment Equipment - attached</li></ul>	This unit has a 20% female participation
2.	Infantry Battalion <ul style="list-style-type: none"><li>• Table of Organization (Organigram) - attached</li><li>• List of Major Equipment - attached</li><li>• List of Self Sustainment Equipment - attached</li></ul>	This unit is a fully mechanized battalion with armed wheeled vehicles and the ability of conducting night operations, engage with civilian populations and requesting air to ground fire support.
3.	Formed Police Units <ul style="list-style-type: none"><li>• Table of Organization (Organigram) - attached</li><li>• List of Major Equipment - attached</li><li>• List of Self Sustainment Equipment - attached</li></ul>	This unit has an embedded SWAT capability of 40 police officers.

The Permanent Mission of the **XXX** to the United Nations avails itself of this opportunity to renew to the United Nations Department of Peace Operations the assurances of its highest consideration.

## **Annex E:**

### **Template of Operational and Technical Information for PCRS Pledge for Air Unit**

#### **Technical Details**

- (a) Automatic direction finding (ADF) equipment capable to guide aircraft to emergency locator transmitters (ELT 406 MHz);
- (b) Emergency locator transmitters (ELT-406 MHz) with valid inspection;
- (c) Weather radar;
- (d) Global positioning system (GPS);
- (e) Night vision equipment;
- (f) Fire extinguishers and first aid kits;
- (g) Flight data recorder (FDR) and cockpit voice recorder (CVR);
- (h) Radar altimeter;
- (i) TCAS II;
- (j) Transponder;
- (k) Survival kits appropriate to mission area;
- (l) Communication equipment: VHF, HF, UHF and satellite phone;
- (m) Fully operational in tropical climates and dusty conditions.

#### **Operational details**

- (a) Each helicopter must be able to transport up to:
  - (i) 24 troops with individual equipment;
  - (ii) Up to 12 CASEVAC/MEDEVAC stretchers with a CASEVAC/MEDEVAC team of three personnel;
  - (iii) 4,000 kg of cargo internally, or
  - (iv) 3,000 kg freight externally (by sling).
  - (v) Desired operating range within all AOR, fully loaded without refuelling, is 350 NM (actual range may be limited by the aircraft type and environmental conditions).
- (b) All helicopters and crews are to be capable of:
  - (i) High altitude operations;
  - (ii) Day/night visual flight rules (VFR);
  - (iii) Day/night instrument flying rules (IFR);
  - (iv) Operating with night vision goggles; and
  - (v) Landing on unprepared terrain in VFR by day and night without assistance from troops on the ground.
